Professional Summary

Master’s graduate in Applied Computer Science and Software Developer with nearly 2 years of experience in **full-stack development, cloud technologies, and technical support**. Seeking a challenging role in a growth-oriented organization to leverage expertise in **Java, JavaScript, React.js, Next.js, Spring Boot, and cloud platforms** to develop scalable software solutions, contribute to innovative projects, and enhance technical and problem-solving skills.

With a Master’s degree in Applied Computer Science and nearly two years of experience in full-stack development, business development, and agile testing. I am eager to contribute my skills in Java, React.js, and cloud technologies to a dynamic team. My recent role as an IT Developer Co-op at the Canada Revenue Agency has equipped me with hands-on experience in diagnosing and remediating critical issues in Java-based applications, ensuring high performance and usability.

Throughout my career, I have demonstrated proficiency in developing scalable software solutions and collaborating effectively within Agile environments. My experience in managing projects using JIRA and maintaining technical documentation in Confluence has honed my ability to work seamlessly with cross-functional teams. Additionally, my background in customer success has strengthened my communication skills, allowing me to translate complex technical requirements into actionable insights.

I am particularly passionate about leveraging cloud platforms such as AWS and GCP to enhance application performance and user experience. My commitment to continuous learning and improvement drives me to stay updated with the latest technologies, ensuring that I can contribute effectively to innovative projects.

Skills

Programming & Development — Java | JavaScript | Python | Kotlin | SQL

Frameworks & Libraries — React.js | Next.js | Node.js | Express.js | FastAPI | Spring Boot

Cloud Technologies — Amazon Web Services (AWS) | Google Cloud Platform | Microsoft Azure (learning)

Databases — MongoDB | DynamoDB | Firebase | SQL

Tools & DevOps — Git | Android Studio | Docker | Maven | Tableau | JIRA | SonarQube | Postman | Figma

Development Practices — Agile | Test-Driven Development (TDD) | Object-Oriented Programming (OOP) | CI/CD

Soft Skills — Leadership Competence | Analytical Problem-Solving | Collaborative Teamwork | Exceptional Interpersonal Skills | Effective Decision-Making | Critical Thinking

Work Experience

- IT Developer/Analyst**
Canada Revenue Agency

06/2023 – 09/2023
Halifax, Canada

 - **Diagnosed and remediated critical issues** in Java-based enterprise applications, enhancing system usability, stability, and performance.
 - **Validated application reliability** through systematic testing and debugging, achieving 99%+ error-free functionality across modules.
 - **Collaborated in an Agile environment** using JIRA for project tracking, maintaining detailed documentation in Confluence.
 - **Assisted with Python scripts** to log automated test data generation, improving QA efficiency and reducing manual efforts.
- Customer Success Executive**
Townscript

09/2019 – 03/2021
Pune, India

 - **Collaborated with technical teams** to gather requirements and implement solutions in an Agile environment.
 - **Built interactive dashboards using Tableau and Excel** to track sales, customer engagement, and operational metrics.

- **Investigated application and operational datasets** to uncover technical bottlenecks, contributing insights for backend optimization.
- **Supported customer issue resolution** by translating business needs into actionable technical inputs for engineering teams

Web Design Intern

SkillsSanta

03/2018 – 06/2018

Bangalore, India

- **Engineered responsive web interfaces** using React.js, HTML5, and CSS3, ensuring consistent functionality across browsers.
- **Refined UI/UX design elements** to improve usability and visual appeal, contributing to a 25% increase in user retention.
- **Applied mobile-first design principles** to ensure seamless cross-device compatibility across smartphones, tablets, and desktops.

Projects

StackXchange - Resource Sharing platform

React.js, Express.js, Firebase Authentication, Firestore, and Firebase Storage

- Built a **full-stack resource sharing platform** using React.js and Firebase.
- Implemented **role-based authentication, protected routes, an admin dashboard, and real-time Firestore data handling.**
- Developed features including **file uploads, code editor integration, ratings & comments system, analytics charts, and responsive dark-mode UI.**

Ride Share - Car Pool application

Java, Spring Boot, React.js, SQL

- Integrated **frontend React components with Spring Boot backend.**
- Designed and implemented **SQL-based relational database schemas** for users, rides, and bookings.
- Wrote optimized **SQL queries for data retrieval, filtering, and backend operations.**

Halifax Foodie - Serverless application

React.js, AWS, GCP

- Developed a **full-stack application with React.js, integrated with AWS and GCP** for seamless performance.
- **Conducted cross-browser testing,** achieving consistent UI performance across major platforms.

Digi Soul - MERN stack application

- Built a **single-page application** with React.js and a **robust back-end** with Node.js and Express.js, achieving a 10% **reduction in response time.**
- Performed **API testing with Postman,** ensuring high performance and reliability.

Education

Masters of Applied Computer Science

Dalhousie University

05/2022 – 09/2023

Halifax, Canada

Bachelors in Computer Science Engineering

Christ University

06/2015 – 05/2019

Bangalore, India

Core Competencies

- Full-Stack development & Application support
 - Software Design & Solution Implementation
 - Testing, Debugging & Performance Optimization
 - Scripting & Automation
 - DevOps Practices
 - Requirements Analysis & Stakeholder Communication
 - Team Collaboration & Cross-Functional Coordination
- Cloud Solutions & Serverless Applications
 - SQL querying & Database management
 - Data Analysis & Dashboard Development
 - Continuous Integration & Deployment (CI/CD)
 - Agile Project Management
 - Incident & Problem Management
